SUMMARY

Final year Computer Engineering student with hands-on expertise in frontend and web development, specializing in React.js and other frontend frameworks. Demonstrated ability to build scalable, responsive web applications through real-world project development. I am a quick learner who enjoys working in an adaptive environment always improve my problem-solving skills through practical development.

EDUCATION

MET's Institute of Engineering, Nashik
B.E. Computer Engineering

2022 – 2026
CGPA: 8.12 / 10.0

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript

Libraries / Frameworks: HTML5, CSS3, React.js, Node.js, Tailwind CSS, Bootstrap, Material UI

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Vercel, Netlify, Firebase, Figma

EXPERIENCE

StackLab.in

Nov 2024 – Jan 2025

Software Developer Intern

Pune, Maharashtra

- Built GoRSVP, a full-featured event management platform supporting event creation, RSVP tracking, image uploads, and role-based access control.
- Designed and implemented user-friendly pages using React.js and Tailwind CSS, following team coding standards and Figma wireframes.
- Also Contributed as a tester to identify and fix bugs created test cases and validated cross-browser compatibility across the application.

PROJECTS

GoRSVP | *React.js, Express.js, Node.js, MongoDB* | [Live](#) | [GitHub](#)

During Internship

- Developed a portal for organisers to host events, manage check-ins, and integrate Google OAuth for third-party login.
- Implemented editable event posts, soft-deletion operations, and a dashboard to track event data in real time.

MoneyVue | *React.js, CSS, Firebase* | [Live](#) | [GitHub](#)

Personal Project

- Designed and developed a secure personal finance management app with Google Authentication via Firebase and a Realtime Database for storing transactions.
- Integrated various responsive charts to visualise financial summaries by tags and timeline for clear spending insights for the user

CERTIFICATIONS

Microsite Creation

Infosys Springboard — 2023

Git & GitHub

Microsoft Learn — 2024

React.js Development

Scaler — 2025

LEADERSHIP & EXTRACURRICULAR

Technical Core Committee Member — SAC

2023-24

- Hosted and managed a Free Fire community gaming event, coordinating all activities and successfully bringing together 30+ inter-college teams.

Advisory Head — SAC

2025-26

- As Advisory Head, oversaw the planning and execution of all inter-college events, guiding respective teams to successfully host their activities smoothly.
